

# Do.Re.Mi. Games

## NS PRODUCT

---

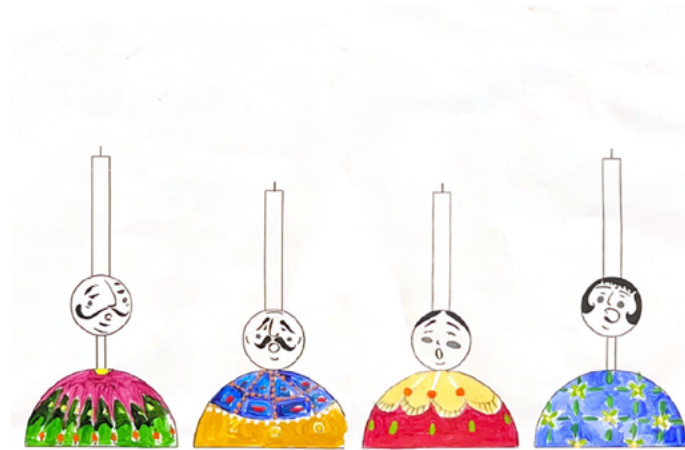

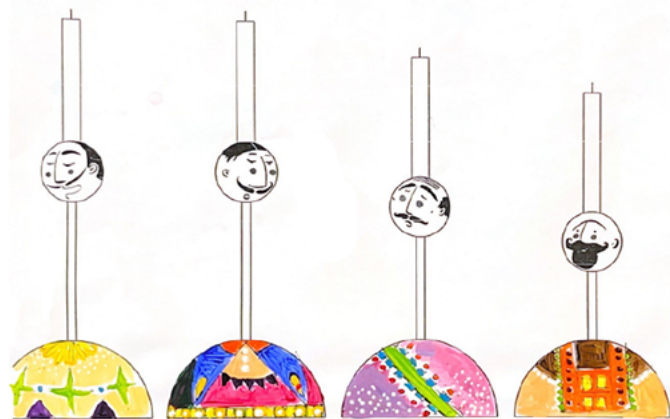

NS PRODUCT was founded in 2022 as an independent company, building on nearly a decade of experience in architecture and interior design. After years of refining our expertise, we recognized the opportunity to expand our vision and introduce a dedicated product design line alongside our architectural work.

Our journey began with small-scale architectural projects, where we also experimented with furniture and product design. As the company evolved, integrating unique interior elements became a core part of our work. This hands-on experience inspired us to create a distinct product design platform—one that reflects our studio's unified philosophy, celebrates individuality, and serves as a space for innovative ideas in product design.

## DO.RE.MI.

“Do-Re-Mi” – 12 hand painted figures are the smallest and the most substantial members of the collection. Each of them can be identified by their individual names, clothing, mood, and outward look. Zizi, Zhuzhu, Rima, Nazi, Lola, and Wanda make up the women’s team. Roin, Chichiko, Budu, Kukuri, Sese, and Estate are among the male team. Their clothing’s embellishments are modeled after the patterns and colors seen on antique Georgian fabrics, but they have been updated and tailored to fit the names and physical characteristics of each individual.

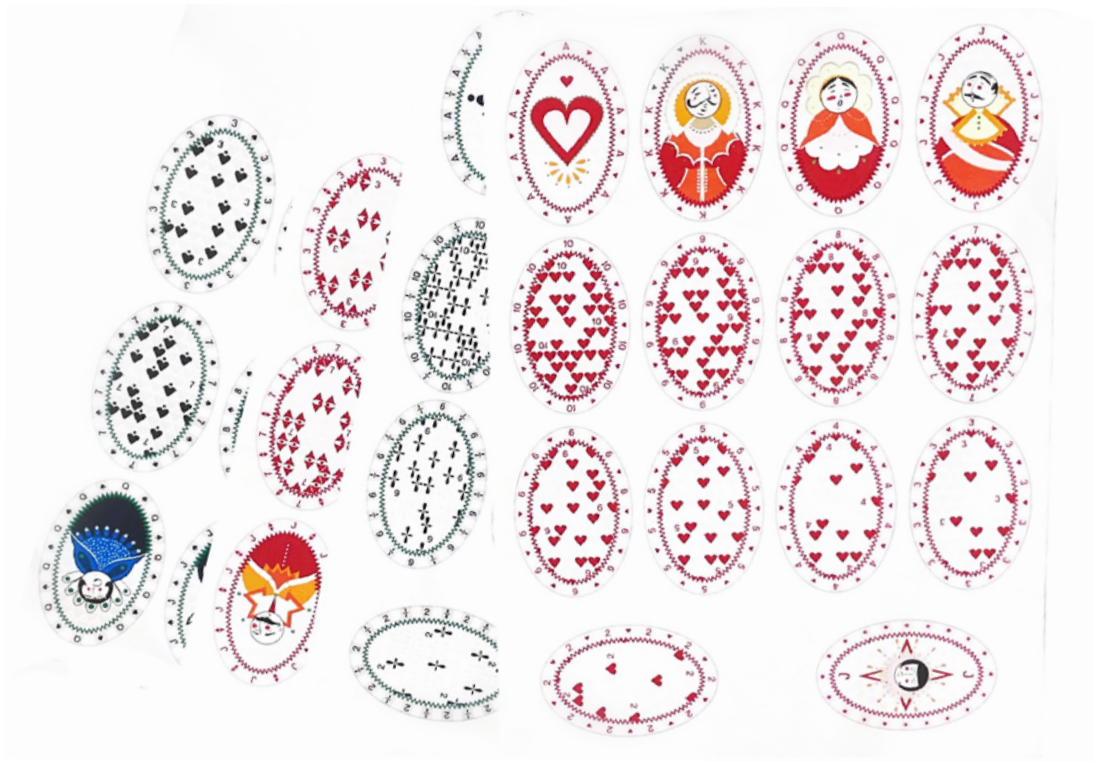

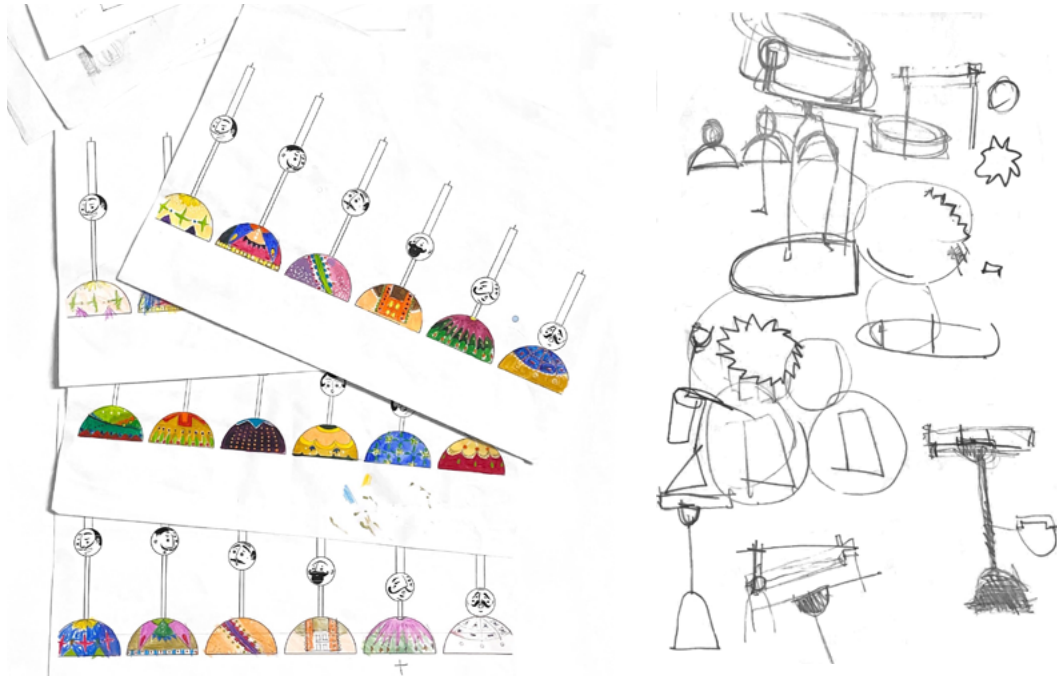

## DO.RE.MI.

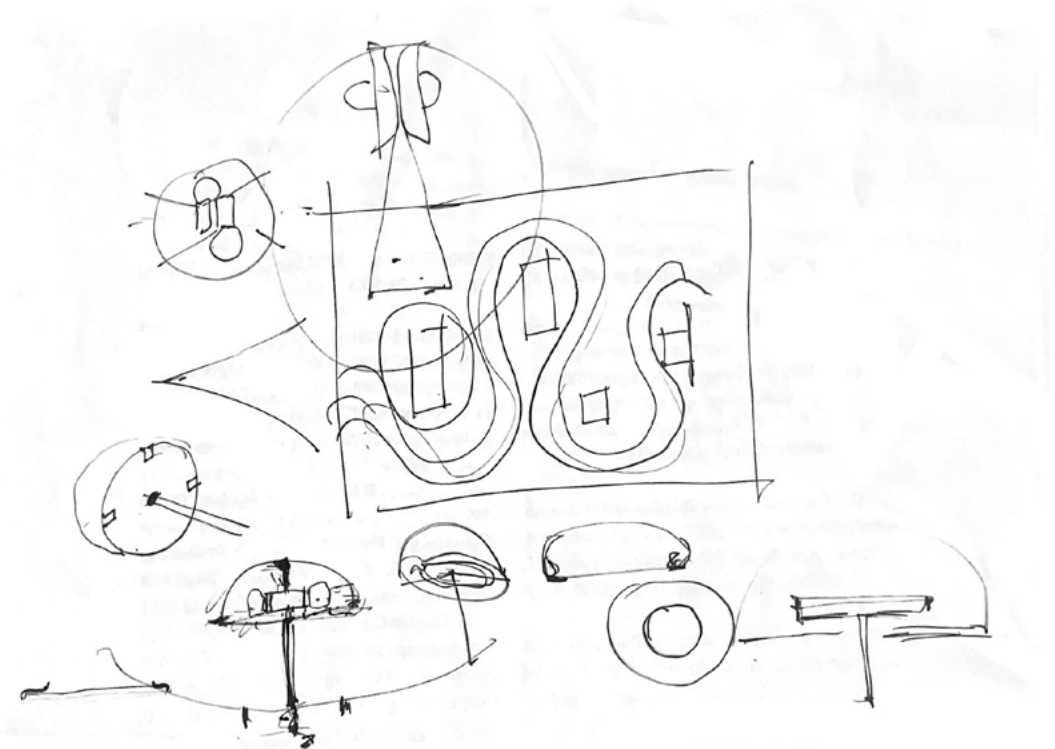

As seen in the photos, the decorative elements we incorporate into our interiors do more than just enhance the space—they infuse it with a personal touch and an element of fun. Each piece is carefully hand-painted, ensuring that no two are exactly alike. This unique approach not only adds character to the design but also reflects our commitment to craftsmanship and individuality. By blending art with function, these decorative elements create an atmosphere that feels both curated and authentic, allowing each space to tell its own story.

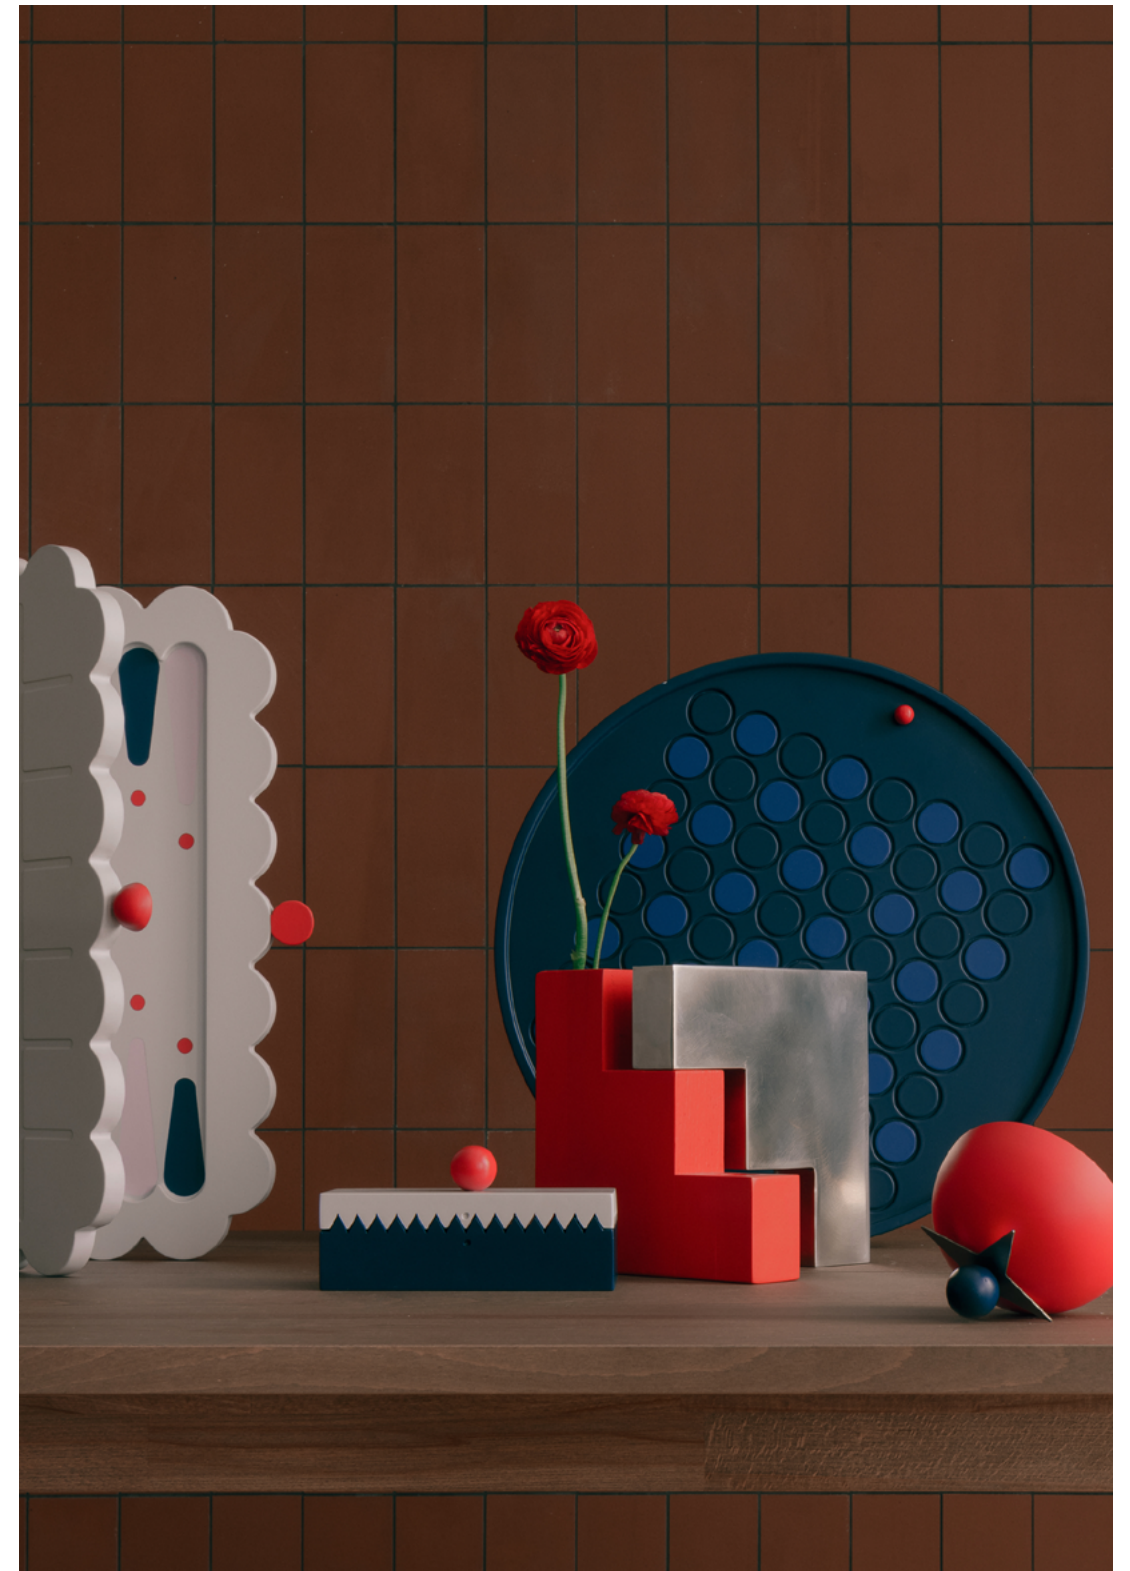

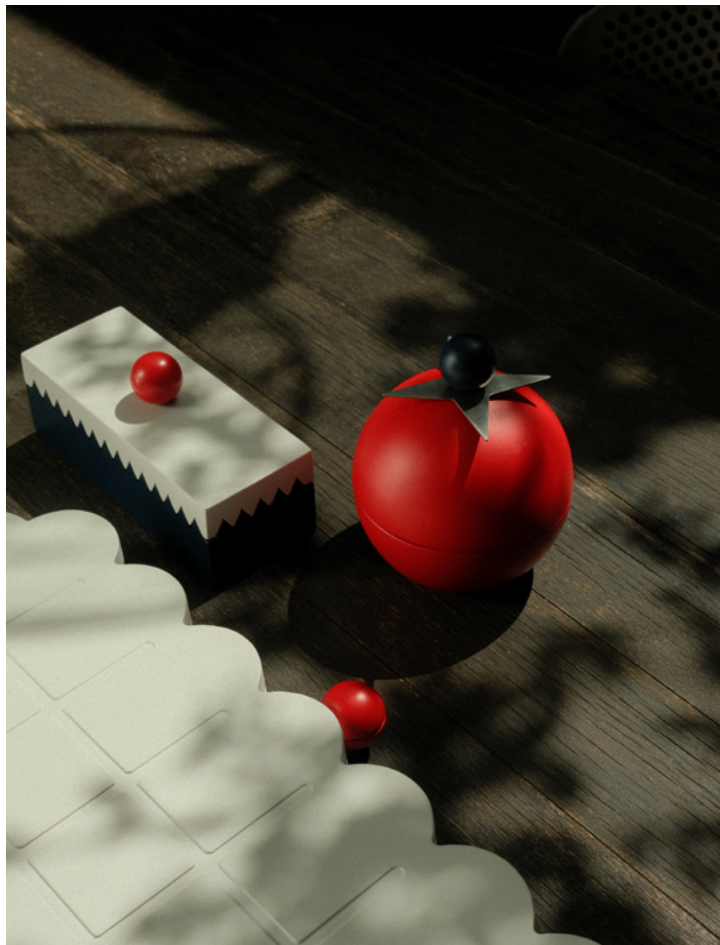

We felt that while the decorative elements added a personal and playful touch, there was still something missing in terms of fun and engagement. This led us to extend the collection by incorporating this sense of playfulness into everyday objects, starting with a uniquely designed playing card set. Inspired by the success of our first pieces, we decided to expand further, creating a full range of games that carry the same sense of fun and character. Each new addition to the collection is designed to evoke the same playful spirit, turning everyday moments into something more creative and enjoyable, while maintaining the individuality and craftsmanship that defines our brand.

# DO.RE.MI. GAMES

The enchanting universe of Do.Re. Mi. Games is a fusion of playfulness, creativity, and sophistication that promises not just entertainment, but an experience that resonates with the essence of each game.

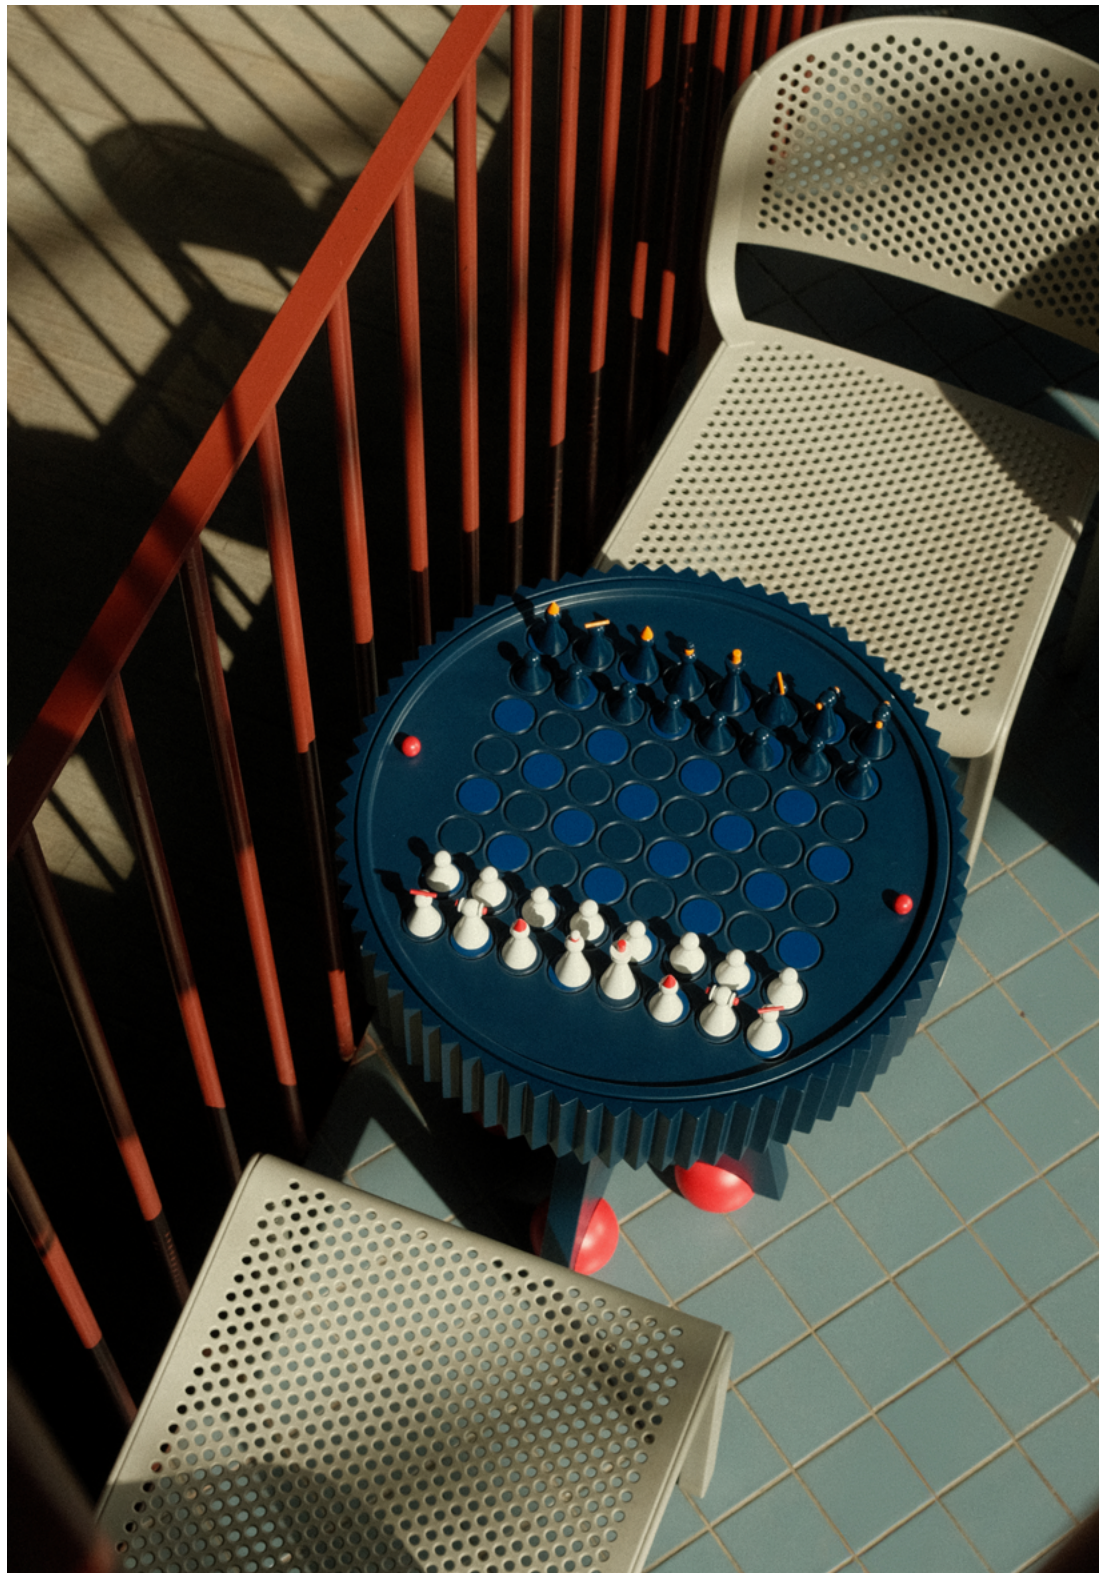

## Chess

Hand-crafted and carved into wooden materials, Do.Re.Mi. Chess becomes a daily companion because of its dual functionality. Initially appearing as a coffee/side table, furnished with captivating details, it keeps a delightful secret: a hidden chessboard that unfolds with surprise. Each figure is meticulously crafted and refined to guarantee perfect shape and style. Playful forms of the table are balanced with colors, ensuring it complements any interior with a touch of class.

## Playing Cards

Crafted with passion and adorned with unique illustrations, our oval-shaped cards feature characters familiar from our first collection of handmade Do.Re. Mi objects, now taking center stage as jokers, jacks, queens, and kings. Encased in a stunning round red wooden box embellished with stainless steel star detail, our cards are hidden within, creating an enchanting surprise for any player. Join Zizi, Zhuzhu, Chichiko, Sese, and other beloved characters as they don their regal attire and invite you to explore the timeless tradition of card games with a delightful twist.

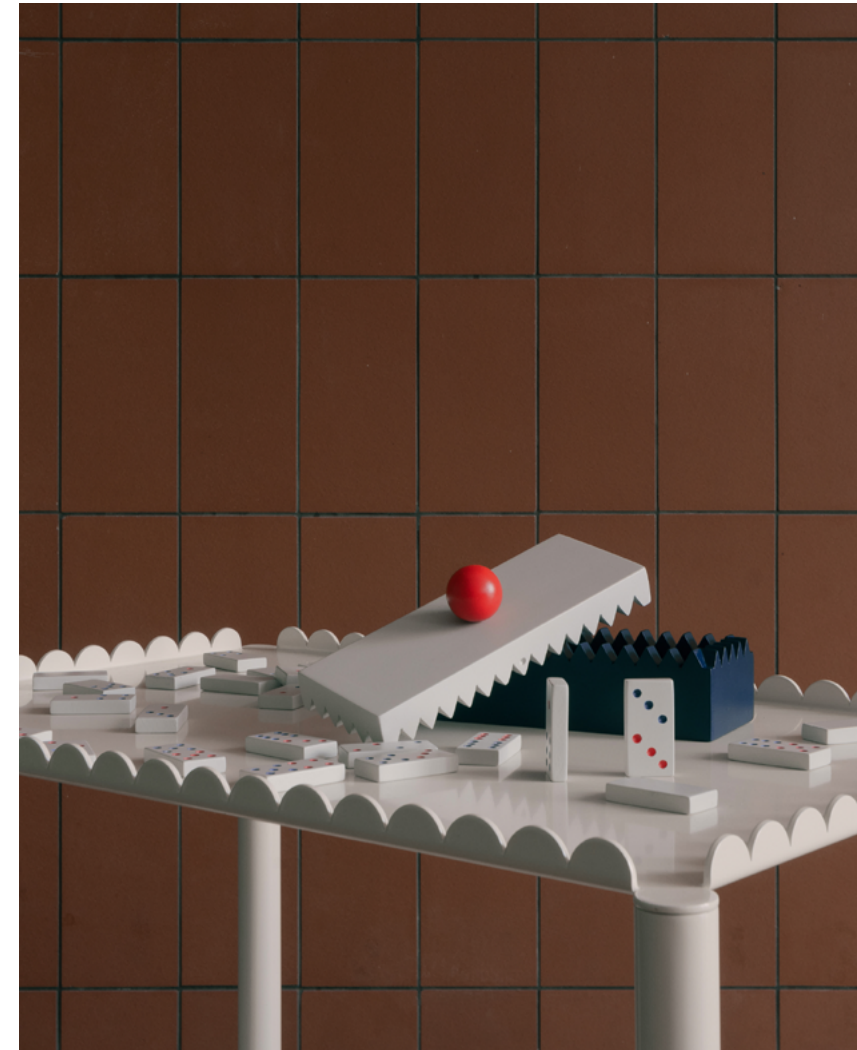

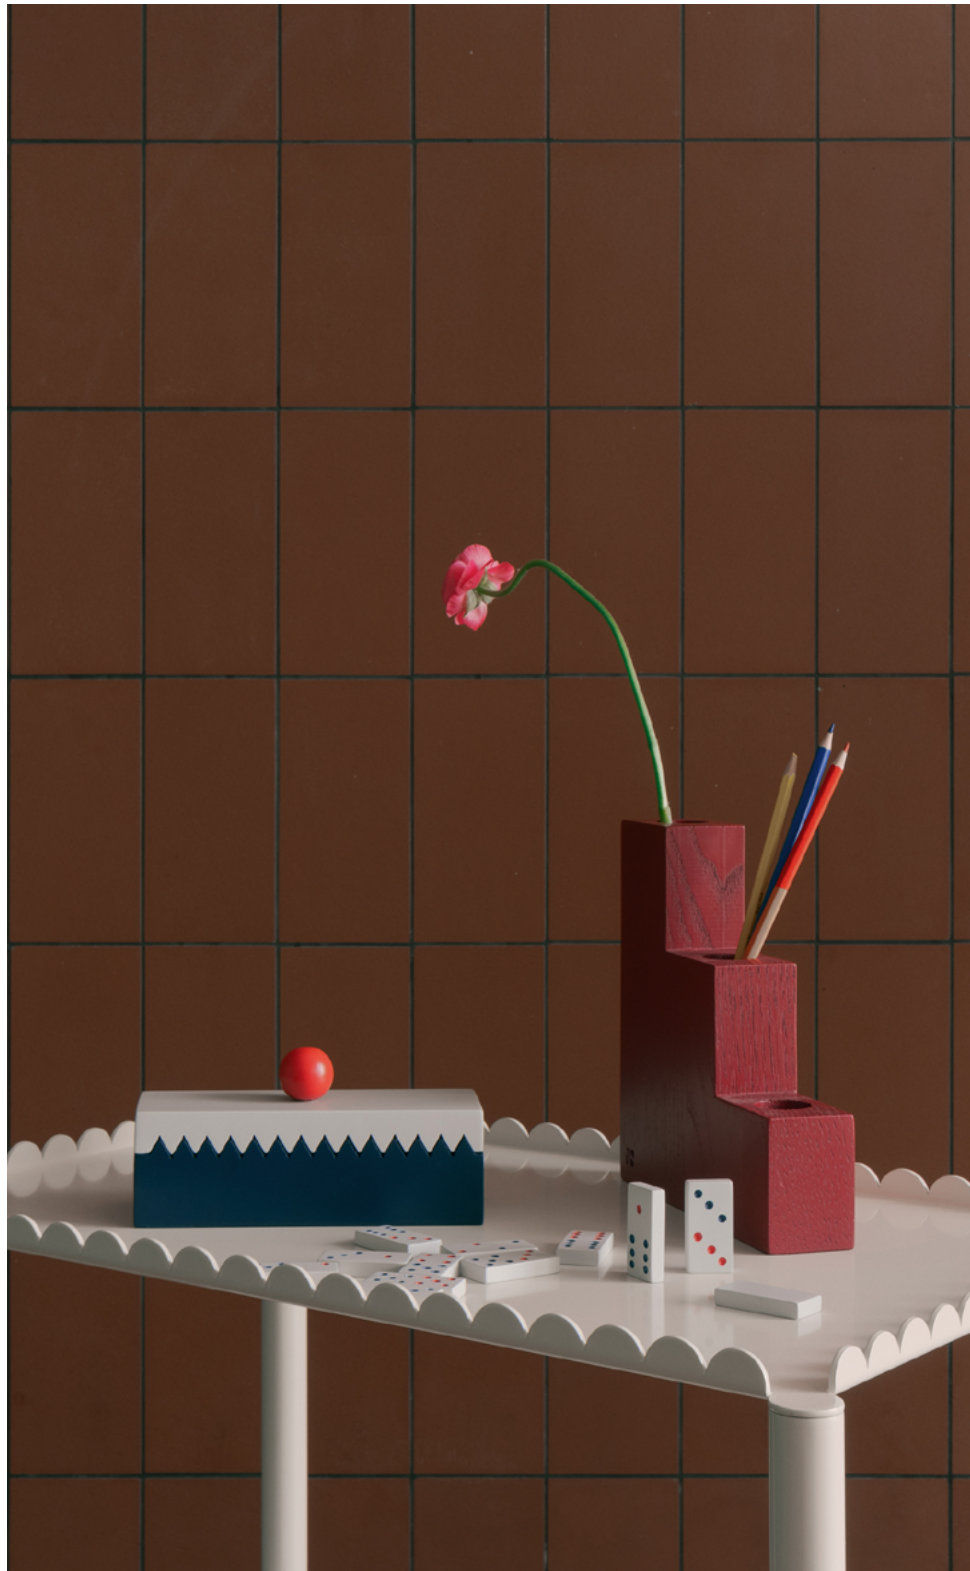

## Backgammon

Handcrafted with care from wood, our design infuses the timeless appeal of the classic game with a hint of fun. The inviting shapes and colors beckon players to enjoy a lively evening or make a memorable gift. Featuring a specially designed wooden hinge, our backgammon set stands out as a masterpiece of both form and function. And while the pieces may resemble delectable doughnuts, Their clever shape ensures that every match is not just enjoyable but comfortable and convivial. making our backgammon set a must-have for any gathering or enthusiasts of unique products.

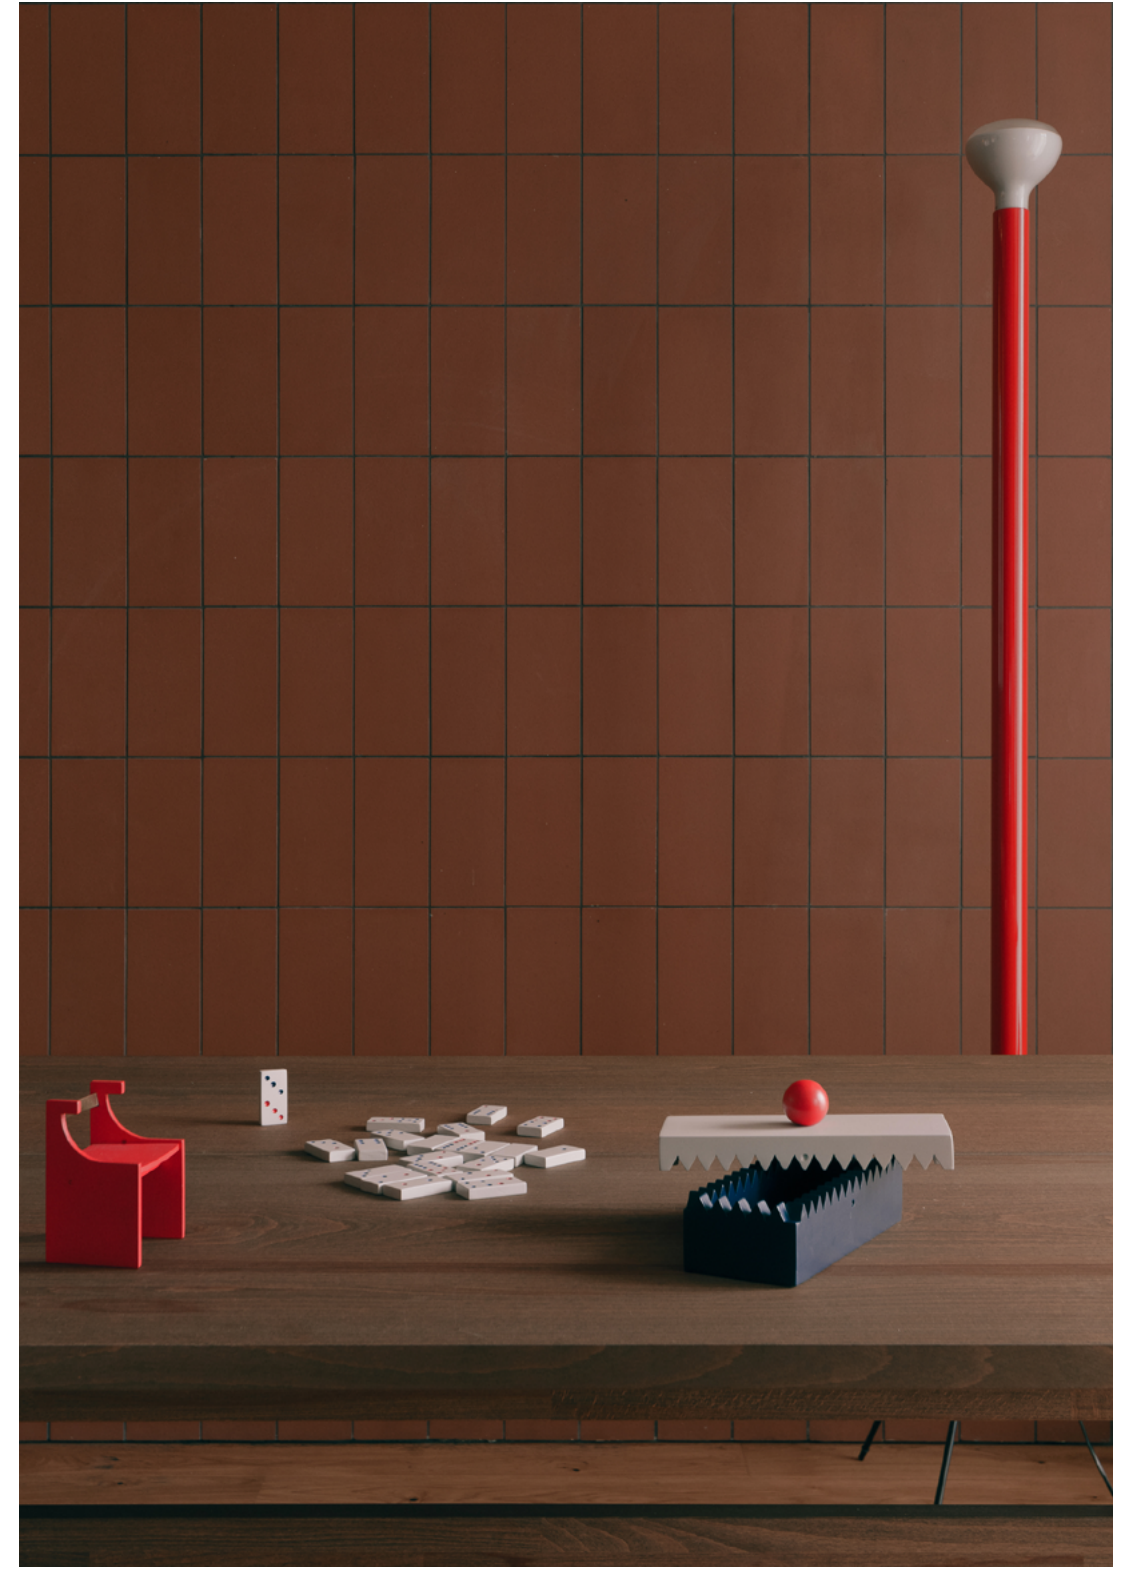

## Domino

Each piece, including the charmingly crafted wooden box, is meticulously handmade, reflecting the vibrant color palette of our entire collection. Our dominoes offer a playful twist that injects fun into every game. Made with the same attention to detail and quality craftsmanship as our other creations, Do.Re. Mi. Domino set promises endless entertainment for all ages.

# Exhibition

We are proud to present our games collection, which, like the rest of our designs, is fully handcrafted. Each game is carefully crafted with attention to detail, featuring unconventional shapes, forms, and bold combinations of colors. These unique design elements not only make the games visually striking but also enhance the experience, making them both playful and aesthetically engaging. Every piece in the collection reflects our commitment to creativity, quality, and the belief that everyday objects can be works of art.
